The Foundation has taken the necessary actions to ensure that information in any format (paper or electronic) is protected so that the relationship of trust between the constituent and the Foundation is upheld. The Foundation recognizes, and adheres to, the UHN Corporate Privacy Policy and Information Security and Appropriate Use of Technology Policy.

The Toronto General & Western Hospital Foundation Privacy Policy serves to outline the rules for the collection, use, disclosure and retention of personal information. The Policy is based on ten (10) internationally recognized privacy principles.

A Privacy Impact Assessment is required for the creation of new personal information systems and for significant changes to existing information systems at the Foundation to identify potential risks to privacy.

Agreements, such as the data sharing agreement, between the Foundation and University Health Network will be used to articulate mutual accountabilities.

The Foundation will notify individuals impacted by a breach where there is a real risk of significant harm.

The Foundation will limit the collection of personal information to that which is necessary for the purposes identified. Information will be collected by fair and lawful means. The Foundation does not collect any personal **health** information, other than that which is volunteered directly by the constituent.

The Foundation will be in compliance to Personal Health and Information Protection Act legislation in respect to the Foundation's handling of personal health information.

5. Limiting Use, Disclosure, and Retention of Personal Information.
